Allowable Subject Matter

Claims 2 and 3 are allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination does not fairly suggest the claimed invention of verifying safety properties in java byte code. Specifically claim 2 is directed to mapping functioning of byte code program by a potentially infinite state transition system into finite state, verifying using modeling checking whether each individual condition of plurality of individual conditions is fulfilled and automatically releasing the byte code program for processing. Therefore, the claimed invention improves the byte code verification process and verifies system properties for better execution.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
